VOLUME 50 · SUBJECT INDEX

A

Abdominal aortic aneurysms, Hospital volume, calendar age, and short term outcomes in patients undergoing repair of abdominal aortic aneurysms: the Ontario experience, 1988–92, **207**

Abortion
- Abortion, breast cancer, and impact factors – in this number and the last, **605**
- Induced abortion as an independent risk factor for breast cancer: a comprehensive review and meta-analysis, **481**

Accidental death, Reducing accidental death in young people – a major challenge, **599** *abst*

Accidents, A case-control study of childhood pedestrian injuries in Perth, Western Australia, **280**

Acute admission, Alternatives to acute admission: the national picture, **586** *abst*

Adolescents
- Parental smoking and the nutrient intake and food choice of British teenagers aged 16–17 years, **306**
- Reducing accidental death in young people – a major challenge, **599** *abst*
- *Relation between the longitudinal development of lipoprotein levels and biological parameters during adolescence and young adulthood in Amsterdam, The Netherlands*, **505**
- Tobacco use prevalence and correlates among adolescents in a clinician initiated tobacco prevention trial in California, USA, **340**

African Americans, Urbanisation and coronary heart disease mortality among African Americans in the US South, **252**

Age, Age specific sensitivity and sojourn time in a breast cancer screening programme (DOM) in The Netherlands: a comparison of different methods, **68**

Air pollution
- Air pollution and mortality in Barcelona, **S76**
- Air pollution and mortality in Valencia, Spain: a study using the APHEA methodology, **527**
- APHEA Project. Short term effects of air pollution on health: a European approach using epidemiological time series data, **S1–80**: foreword, **S2**
- Association between air pollution and the daily number of deaths: findings from the Slovak Republic contribution to the APHEA project, **S19**
- Asthma and ambient air pollution in Helsinki, **S59**
- Daily mortality and air pollutants: findings from Köln, Germany, **S52**
- Daily mortality and "winter type" air pollution in Athens, Greece – a time series analysis within the APHEA project, **S47**
- Does industrial air pollution affect the health of Teesside's poorest communities? A study of health, illness, and the environment, **589** *abst*
- Effects of air pollution on daily hospital admissions for respiratory disease in London between 1987–88 and 1991–92, **S63**
- Effects of weather and air pollution on bronchitic patients: *historical abstract*, **479**
- Methodological issues in studies of air pollution and daily counts of deaths or hospital admissions, **S3**
- Respiratory health effects of industrial air pollution: a study in east Lancashire, UK, **631**
- Short term effect of air pollution on mortality in Polish urban populations – what is different? **S36**
- Short term effects of air pollution on emergency hospital admissions for respiratory disease: results of the APHEA project in two major cities in The Netherlands, 1977–89, **S22**
- Short term effects of air pollution on health: a European approach using epidemiologic time series data: the APHEA protocol, **S12**
- Short term effects of air pollution on mortality in the city of Lyon, France, 1985–90, **S30**
- Short term effects of urban air pollution on respiratory health in Milan, Italy, 1980–89, **S71**
- Short term respiratory health effects of ambient air pollution: results of the APHEA project in Paris, **S42**

Alcohol
- Health services research in a service environment: design and implementation issues, **595** *abst*
- Influence of alcohol consumption on worldwide trends in mortality from upper aerodigestive tract cancers in men, **636**
- Smoking and alcohol consumption in Trent, UK: an analysis of item non-response, **687**
- Tobacco smoking and alcohol consumption as risk factors of glioma: a case-control study in Melbourne, Australia, **442**

Aluminum-Alzheimer's disease, Further thoughts on the aluminum-Alzheimer's disease link, **401**

Ambulatory visits, Comparison of patient satisfaction with ambulatory visits in competing health care delivery settings in Geneva, Switzerland, **463**

Anaemia, Maternal anaemia and congenital deformity: historical abstract, **479**

Angina
- Comparison of three measures of perceived distress: results from a study of angina patients in general practice in Northern Ireland, **202**
- Cost effectiveness of personal health education in primary care for people with angina in the Greater Belfast area of Northern Ireland, **538**

Ankle brachial pressure index, Identification of individuals at increased risk of cardiovascular events and death: a potential new screening tool, **596** *abst*

Antenatal care, Utilisation of reproductive health services in rural Vietnam: are there equal opportunities to plan and protect pregnancies?, **451**

Anthropometric indices, Anthropometric indices which include waist are better than body mass index as predictors of all cause and cardiovascular mortality, **592** *abst*

Anti-smoking advice, Randomised controlled trial of anti-smoking advice in pregnancy: *historical article*, **232**; comment: 20 years on, **237**

Anticoagulant service, Cost effectiveness of a nurse specialist anticoagulant service, **591** *abst*

Anxiety, Menarche and the onset of depression and anxiety in Victoria, Australia, **661**

APHEA Project
- Air pollution and mortality in Valencia, Spain: a study using the APHEA methodology, **527**
- APHEA Project. Short term effects of air pollution on health: a European approach using epidemiological time series data, **S1–80**: foreword, **S2**

Arterial pressure, Arterial pressure, physique and occupation: *historical abstract*, **479**

Asian patients, The admission of Asian patients to intensive therapy units and its implications for kidney donation: a preliminary report from Coventry, UK, **447**

Asthma, Asthma and ambient air pollution in Helsinki, **S59**

Atherosclerosis, Relation between the longitudinal development of lipoprotein levels and biological parameters during adolescence and young adulthood in Amsterdam, The Netherlands, **505**

Australia, Menarche and the onset of depression and anxiety in Victoria, Australia, **661**

Automobile factory, Occupational dermatoses in an automobile factory: *historical abstract*, **478**

Avoidable mortality
- Can regional variation in "avoidable" mortality be explained by deaths outside hospital? A study from Sweden, 1987–90, **326**
- Discounting, inequality, and avoidability in health and illness: editorial, **231**

B

Barcelona, Air pollution and mortality in Barcelona, **S76**

Bereavement, Mortality after death of spouse in relation to duration of bereavement in Finland, **264**

Bibliographic "impact factor", The bibliographic "impact factor" of the Institute for Scientific Information: how relevant is it really for public health journals? 606

Biological parameters, Relation between the longitudinal development of lipoprotein levels and biological parameters during adolescence and young adulthood in Amsterdam, The Netherlands, **505**

Birth, Size at birth and systolic blood pressure in children from five countries, **593** *abst*

Birth weight
Birth weight, body mass index in middle age, and incident coronary heart disease, **592** *abst*
Birth weight and mortality from ischaemic heart disease and stroke in Swedish men aged 50–74 years, **592** *abst*
Undesirable consequences of controlling for birth weight in perinatal epidemiological studies, **559**
Use of mid-arm and chest circumference to predict birth weight in rural north India, **683**
Blood donors, Risk factors for hepatitis C virus infection among blood donors in an HIV-epidemic area in Thailand, **174**
Blood pressure
Factors related to total cholesterol and blood pressure in British 9 year olds, **512**
How far can stroke in routine general practice be prevented? A case-control study in relation to quality of control of blood pressure in East Lancashire, **583** *abst*
Physical activity, physical fitness, blood pressure, and fibrinogen in the Northern Ireland health and activity survey, **258**
Body fatness, Relation between the longitudinal development of lipoprotein levels and biological parameters during adolescence and young adulthood in Amsterdam, The Netherlands, **505**
Body image, Weight consciousness and body image among South Asian, Italian and general population women in Britain, **600** *abst*
Body mass index
Anthropometric indices which include waist are better than body mass index as predictors of all cause and cardiovascular mortality, **592** *abst*
Birth weight, body mass index in middle age, and incident coronary heart disease, **592** *abst*
Women's reproductive health: the role of body mass index in early and adult life, **586** *abst*
Body size, Body size and mortality in women: a 29 year follow up of 12 000 pregnant women in northern Finland, **408**
Bone density
Cigarette smoking and bone mineral density in the elderly, **47**
Menopause, menstrual and reproductive history, and bone density in northern Italy, **519**
Bone mass, Importance of participation rate in sampling of data in population based studies, with special reference to bone mass in Sweden, **170**
Book reviews

Weiss K. The genetic variation and human disease: principles and evolutionary approaches, **603**
WHO European Centre for Health and the Environment. Concern for Europe's tomorrow. Health and the environment in the WHO European region, **230, 603**
Bowel cancer, Socioeconomic circumstances and the risk of bowel cancer in Northern Ireland, **640**
Bradford, Prevalence of low back pain in the community: implications for service provision in Bradford, UK, **347**
Breast cancer
Abortion, breast cancer, and impact factors – in this number and the last, **605**
Induced abortion as an independent risk factor for breast cancer: a comprehensive review and meta-analysis, **481**
Breast screening
Age specific sensitivity and sojourn time in a breast cancer screening programme (DOM) in The Netherlands: a comparison of different methods, **68**
Breast screening: a randomised controlled trial in UK general practice of three interventions designed to increase uptake, 72
Evaluation of the impact of the UK breast screening programme in South East Thames region from a population perspective, **589** *abst*
Long term breast cancer screening in Nijmegen, The Netherlands, **353**
Response of women aged 65–74 to invitation for screening for breast cancer by mammography: a pilot study in London, UK, **77**
Risk factor analysis of data from assessment clinics in the UK breast screening programme: a case-control study in Portsmouth and Southampton, **144**
British Journal of Social Medicine, The *British Journal of Social Medicine*: what was in a name? **583** *abst*
Bronchitis, Effects of weather and air pollution on bronchitic patients: *historical abstract*, **479**
BSE, Policy lessons from the BSE affair, **596** *abst*

C
Caesarian sections, Caesarian sections in Guadalajara, Mexico: sociodemographic risk factors, **225**
Calcium intake, Calcium intake among women aged 40–76 in Sweden, **577**
Cambridgeshire, Multiple sclerosis in south Cambridgeshire: incidence and prevalence based on a district register, **274**
Cancer
Are terminally ill elderly cancer patients getting their fair share of community and hospital services? **598** *abst*
Geographical distribution of childhood cancers in Britain, **582** *abst*
Spatial clustering of childhood cancers in Great Britain, **313**
Cancer risk, Cancer risk and prognosis in Norway: comparing women in their first marriage with women who have never married, **51**
Capture-recapture methods
Estimating the incidence of coeliac disease with capture-recapture methods within four geographic areas in Italy, **299**
Estimating the point accuracy of population registers using capture-recapture methods in Scotland, **99**
Estimating the prevalence of drug misuse in Dundee, Scotland: an application of capture-recapture methods, **469**: correction, **691**
Cardiac surgery, Cardiac surgery in England – do men and women have equal access? **590** *abst*
Cardiovascular disease
Cost effectiveness and equity of a community based cardiovascular disease prevention programme in Norsjö, Sweden, **190**

Ethnic differences in mortality from cardiovascular disease in the UK: do they persist in people with diabetes? **137**
Prospective study of social networks in relation to total mortality and cardiovascular disease in men in the USA, **245**
Reliability of data from proxy respondents in an international case-control study of cardiovascular disease and oral contraceptives, **674**
Rise and fall of cardiovascular disease in England and Wales, **584** *abst*
Cardiovascular epidemiology, The origins of cardiovascular epidemiology in Britain and the USA, **584** *abst*
Cardiovascular risk factors
Helicobacter pylori seropositivity and cardiovascular risk factors in a multicultural workforce, **578**
Identification of individuals at increased risk of cardiovascular events and death: a potential new screening tool, **596** *abst*
Care, Challenges of monitoring use of secondary care at local level, **359**
Caribbean community, Incidence of hypertension and non-insulin dependent diabetes mellitus and associated risk factors in a rapidly developing Caribbean community: the St James survey, Trinidad, **497**
Carotid stenosis, Screening for asymptomatic carotid stenosis, **596** *abst*
Case finding, Case finding in 70–74 year olds using domiciliary visits by health visitors – a randomised controlled trial, **592** *abst*
Cataract surgery, A randomised controlled trial to assess the benefits of second eye cataract surgery, **591** *abst*
Cement works, Respiratory health effects of industrial air pollution: a study in east Lancashire, UK, **631**
Cervical cancer, Geographical distribution of risk factors and incidence of invasive cervical cancer in south east China, **104**
Cervical intraepithelial neoplasia, Influence of the cervical screening programme on the incidence and stage distribution of invasive cervical cancer and grade III cervical intraepithelial neoplasia (CIN III), **590** *abst*
Cervical screening programme, Influence of the cervical screening programme on the incidence and stage distribution of invasive cervical cancer and grade III cervical intraepithelial neoplasia (CIN III), **590** *abst*
Cervical smear, Emotional reactions and colposcopy: *correspondence*, **108**
Charlton classification, The effectiveness of health systems in influencing avoidable mortality: a study in Valencia, Spain, 1975–90, **320**
Chest circumference, Use of mid-arm and chest circumference to predict birth weight in rural north India, **683**
Children
Case-control study of childhood pedestrian injuries in Perth, Western Australia, **280**
Child pedestrian injury rates: the importance of "exposure to risk" relating to socioeconomic and ethnic differences, in Auckland, New Zealand, **162**
Childhood leg length and adult mortality – follow up of the Carnegie survey of diet and growth in prewar Britain, 580 *abst*
Children born to HIV-1 infected mothers in Europe, **593** *abst*
Epidemiological survey of rheumatic heart disease among school children in the Shimla Hills of northern India: prevalence and risk factors, **62**
Factors related to total cholesterol and blood pressure in British 9 year olds, **512**
Geographical distribution of childhood cancers in Britain, **582** *abst*
Prevalence of mental defect among children in a metropolitan area: historical abstract, **480**
Quality of life assessment in children: a review of conceptual and methodological issues in multidimensional health status measures, **391**
Reducing accidental death in young people – a major challenge, **599** *abst*
Review of the article by Knox: Leukemia clusters in childhood: correspondence, **109**
Sex ratio of children in relation to paternal preconceptional radiation dose: a study in Cumbria, northern England, **645**
Size at birth and systolic blood pressure in children from five countries, **593** *abst*
Spatial clustering of childhood cancers in Great Britain, **313**
China, Geographical distribution of risk factors and incidence of invasive cervical cancer in south east China, **104**
Cholesterol, Factors related to total cholesterol and blood pressure in British 9 year olds, **512**
Citation indexes, The bibliographic "impact factor" of the Institute for Scientific Information: how relevant is it really for public health journals? **606**
Clifton Suspension Bridge, Suicide from the Clifton Suspension Bridge in England, **30**: *correspondence*, **474**
Clinical codes, Estimating the accuracy of clinical codes recorded on hospital episode statistics data, **598** *abst*
Clusters
Spatial clustering of childhood cancers in Great Britain, **313**
Spot maps of epidemics: *historical abstract*, **480**
Cochrane Collaboration, Hand searching the Journal of Epidemiology and Community Health as part of the Cochrane Collaboration, **178**
Coeliac disease, Estimating the incidence of coeliac disease with capture-recapture methods within four geographic areas in Italy, **299**
Cohort analysis
Appreciation of "Cohort analysis of mortality rates as an historical or narrative technique" (RAM Case), **125**
Cohort analysis of mortality rates as an historical or narrative technique: historical article, **114**
Colposcopy, Emotional reactions and colposcopy: *correspondence*, **108**
Community health
Community health: the risks of confusion and complacency, **6**
Estimating the point accuracy of population registers using capture-recapture methods in Scotland, **99**
Is the short form 36 (SF-36) suitable for routine health outcomes assessment in health care for older people? Evidence from preliminary work in community based health services in England, **94**
Comorbidity, The impact of comorbidity on the outcome of total hip replacement, **585** *abst*
Complacency, Community health: the risks of confusion and complacency, **6**
Confusion, Community health: the risks of confusion and complacency, **6**
Congenital deformity, Maternal anaemia and congenital deformity: *historical abstract*, **479**
Contraception, "It's a mega dose of hormones, isn't it?" Why women may be reluctant to use emergency contraception, **586** *abst*
Coronary heart disease
Alternative job stress models and the risk of coronary heart disease, **588** *abst*
Birth weight, body mass index in middle age, and incident coronary heart disease, **592** *abst*
Comparison of 27 risk factors in the prediction of coronary heart disease over eight years in 5754 men and 5875 women: the Scottish heart health study, **587** *abst*
Effect of diet and physical exercise intervention programmes on coronary heart disease risk in smoking and non-smoking men in Sweden, **131**
Self rated health as a predictor of coronary heart disease in Copenhagen, Denmark, **423**
Urbanisation and coronary heart disease mortality among African Americans in the US South, **252**
What accounts for the differences in the investigation and treatment of men and women with coronary heart disease? **590** *abst*
Coronary heart disease mortality, Dietary fat and later coronary heart disease mortality: results from the 1984–85 health and lifestyle survey, **588** *abst*
Coronary revascularisation rates, Geographical variation in coronary revascularisation rates: correspondence, **227**
Corrigenda, **112**, **691**
Cost
Does a shorter length of hospital stay affect the outcome and costs of hysterectomy in southern England? **545**
Is it possible to shift resources from secondary to primary care? Results from an evaluation of three hospital at home schemes, **586** *abst*
Cost analysis, Health and social costs of tobacco use in Ontario, Canada, 1979 and 1988, **81**
Cost effectiveness
Contacting patients treated by an HIV infected healthcare worker – how worthwhile is the exercise? **593** *abst*
Cost effectiveness and equity of a community based cardiovascular disease prevention programme in Norsjö, Sweden, **190**
Cost effectiveness of a nurse specialist anticoagulant service, **591** *abst*
Cost effectiveness of personal health education in primary care for people with angina in the Greater Belfast area of Northern Ireland, **538**

Cost and effects of clinical guidelines for the management of stroke in a rural district general hospital, **597** *abst*
Costs and effectiveness of an experimental regional trauma system in England, **591** *abst*
Counselling, Health services research in a service environment: design and implementation issues, **595** *abst*
Coventry, The admission of Asian patients to intensive therapy units and its implications for kidney donation: a preliminary report from Coventry, UK, **447**

D
Death of spouse, Mortality after death of spouse in relation to duration of bereavement in Finland, **264**
Deep vein thrombosis, Prevention of deep vein thrombosis after surgery: the role of meta-analyses in reducing (and producing) uncertainty, **597** *abst*
Delivery services, Utilisation of reproductive health services in rural Vietnam: are there equal opportunities to plan and protect pregnancies? **451**
Delivery settings, Comparison of patient satisfaction with ambulatory visits in competing health care delivery settings in Geneva, Switzerland, **463**
Denmark, Changing life expectancy in the 1980s: why was Denmark different from Sweden? **404**
Depression, Menarche and the onset of depression and anxiety in Victoria, Australia, **661**
Deprivation
Deprivation and cause specific morbidity: individual versus ecological measures, **595** *abst*
Deprivation and mortality in non-metropolitan areas of England and Wales, **524**
Predicting the workload in urban general practice in The Netherlands from Jarman's indicators of deprivation at patient level, **541**
Proxies for healthcare need among populations: validation of alternatives – a study in Quebec, **564**
Small area statistics as markers for personal social status in the Scottish heart health study, **570**
Use of deprivation indices in small area studies: *correspondence*, **689**
Dermatoses, Occupational dermatoses in an automobile factory: *historical abstract*, **478**
Diabetes mellitus
Does regular review keep individuals with diabetes out of hospital? A pilot study, **587** *abst*
Ethnic differences in mortality from cardiovascular disease in the UK: do they persist in people with diabetes? **137**
Incidence of hypertension and non-insulin dependent diabetes mellitus and associated risk factors in a rapidly developing Caribbean community: the St James survey, Trinidad, **497**
Pregnancy outcomes in women with pre-existing diabetes mellitus, **581** *abst*
Why don't all general practices offer structured diabetes care? A comparison of practices that do not with those that do, **583** *abst*
Dialysis, The need and demand for renal replacement therapy in ethnic minorities in England, **334**
Diet
Childhood leg length and adult mortality – follow up of the Carnegie survey of diet and growth in prewar Britain, **580** *abst*
Effect of diet and physical exercise intervention programmes on coronary heart disease risk in smoking and non-smoking men in Sweden, **131**
Parental smoking and the nutrient intake and food choice of British teenagers aged 16–17 years, **306**
Dietary fat, Dietary fat and later coronary heart disease mortality: results from the 1984–85 health and lifestyle survey, **588** *abst*
Disability, Comparing survey data on functional disability: the impact of some methodological differences, **86**
Discounting
Discounting, inequality, and avoidability in health and illness: editorial, **231**
Discounting the future: influence of the economic model, **239**
Distal forearm, Risk factors, falls, and fracture of the distal forearm in Manchester, UK, **288**
Distress, A comparison of three measures of perceived distress: results from a study of angina patients in general practice in Northern Ireland, **202**
Domiciliary visits, Case finding in 70–74 year olds using domiciliary visits by health visitors – a randomised controlled trial, **592** *abst*
Drug misuse, Estimating the prevalence of drug misuse in Dundee, Scotland: an application of capture-recapture methods, **469**: correction, **691**
Dysfunctional uterine bleeding, Assessing the long term consequences of treatment for "dysfunctional uterine bleeding", **585** *abst*

E
Economic discount rate, Discounting the future: influence of the economic model, **239**
Education, Levels of mortality, education, and social conditions in the 107 local education authority areas of England, **15**
Elderly
Are terminally ill elderly cancer patients getting their fair share of community and hospital services? **598** *abst*
Cigarette smoking and bone mineral density in the elderly, **47**
Comparing survey data on functional disability: the impact of some methodological differences, **86**
Harstad injury prevention study: community based prevention of fall-fractures in the elderly evaluated by means of a hospital based injury recording system in Norway, **551**
Is the short form 36 (SF-36) suitable for routine health outcomes assessment in health care for older people? Evidence from preliminary work in community based health services in England, **94**
Never married elderly – social networks and health indicators, **589** *abst*
Relationship between outdoor temperature and the frequency of falls among the elderly in Finland, **107**
Elective care, Prioritising elective care: a cost utility analysis of orthopaedics in the north west of England, **182**
Emergency contraception, "It's a mega dose of hormones, isn't it?" Why women may be reluctant to use emergency contraception, **586** *abst*
Emergency department, Non-urgent care in the hospital medical emergency department in France: how much and which health needs does it reflect? **456**
England, Levels of mortality, education, and social conditions in the 107 local education authority areas of England, **15**
Environment
Does industrial air pollution affect the health of Teesside's poorest communities? A study of health, illness, and the environment, **589** *abst*
Gene environment interaction, **397**
Health services research in a service environment: design and implementation issues, **595** *abst*
Environmental tobacco smoke, Features of infant exposure to tobacco smoke in a cohort study in Tasmania, **40**
Epidemics, Spot maps of epidemics: *historical abstract*, **480**
Epidemiologic time series data, Short term effects of air pollution on health: a European approach using epidemiologic time series data: the APHEA protocol, **S12**
Episode statistics
Estimating the accuracy of clinical codes recorded on hospital episode statistics data, **598** *abst*
West Midlands regional study into the influence of "supply" on the variations in uptake of secondary healthcare services by inpatients from differing sociodemographic backgrounds, **598** *abst*
Ethnic differences
Child pedestrian injury rates: the importance of "exposure to risk" relating to socioeconomic and ethnic differences, in Auckland, New Zealand, **162**
Ethnic differences in mortality from cardiovascular disease in the UK: do they persist in people with diabetes? **137**
Ethnic minorities, The need and demand for renal replacement therapy in ethnic minorities in England, **334**
Evidence based decisions, Where trials fear to tread: understanding the limits to evidence based decisions, **595** *abst*
Evidence based priority, The application of evidence based priority setting in a district health authority, **595** *abst*
Exercise, Effect of diet and physical exercise intervention programmes on coronary heart disease risk in smoking and non-smoking men in Sweden, **131**
Eye injuries, Epidemiology and implications of ocular trauma admitted to hospital in Scotland, **436**

F
Falls
Harstad injury prevention study: community based prevention of fall-fractures in the elderly evaluated by means of a hospital based injury recording system in Norway, **551**
Relationship between outdoor temperature and the frequency of falls among the elderly in Finland, **107**

Risk factors, falls, and fracture of the distal forearm in Manchester, UK, **288**

Family planning, Utilisation of reproductive health services in rural Vietnam: are there equal opportunities to plan and protect pregnancies? **451**

Fat
Dietary fat and later coronary heart disease mortality: results from the 1984–85 health and lifestyle survey, **588** *abst*
Fat in the Rhondda Fach: *historical abstract*, **478**

Father's radiation dose, Sex ratio of children in relation to paternal preconceptional radiation dose: a study in Cumbria, northern England, **645**
